Students Testimonials:

I am really pleased to be at Randwick Girls High School. Learning is so much fun and teachers are so caring. My teachers and friends support me a lot. I will always remember the great times I had in this school. There is a great diversity of different cultural backgrounds in this school. In the Racial Harmony Day, held every two years, we can see and ‘feel’ the multiculturalism in Australia. I think Randwick Girls’ is a great place for overseas students to study and have fun.

Mari. W. Year 11, Japan

Comments from a Year 12 International Student:

I am so proud to be part of Randwick Girls High School as it is a community full of love, encouragement and excitement. The teachers are always patient and supportive, and in order to make our school life more colourful many teachers volunteer their precious time to organise activities. This is what really surprised me about my time in Randwick Girls as I have gained a lot of extra knowledge outside the classroom. My role as a homework tutor has provided me a great opportunity to enhance my studies and to communicate ideas with past HSC students. Excursions such as going to ANSTO allowed me to have a better understanding of a nuclear reactor, and going to the Power House I was able to see and experience how a spacecraft work, which was amazing! As an international student another great thing about Randwick Girls is that I was able to celebrate the New Year Spring festival and Mid-Autumn moon festival with the school. Activities with other international students such as going to Mowbray Park provided me opportunity knowing more about the Australian culture and it also let me make many friends from different culture backgrounds. I really experienced a wonderful time in Randwick Girls that I will never forget.

Alex L - Year 12 (International Student from China)
